

## **Guidance Before Entering a First Financial Branch**

- **Consider your need. Can you accomplish your goal through Online/Mobile Banking, Branch Drive Thru, email, or over the phone?**
- **Self-monitor your health. If you have or had any symptoms of COVID-19, please do not enter the Credit Union. Call 732.312.1500 to speak with Member Services over the phone or use our Mobile App or Online Banking to complete your transaction.**
- **Please prepare your deposit, withdrawal, and other documents before you enter the Credit Union. Check writing stands and associated materials may not be available.**
- **Since the number of people able to enter is limited, to the extent possible — we request one person per party per in-branch visit.**
- **Please wear your cloth face covering before you enter the building. This is required. You may be asked to pause and temporarily drop your mask to identify yourself to our branch staff and/or security cameras. If you are unable to wear a face mask or prefer not to lower your mask, we are happy to assist you in our drive thru.**
- **Keep a six foot distance between you and anyone you may encounter, including staff and others inside the branch.**
- **Please do not enter the branch if you have a fever or have been ill in the last 24 hours. You may instead proceed to the drive thru for further assistance.**
